PROFILE SUMMARY

Manager, Strategy at Founder's Office of an Insurtech Company. Curious, passionate and highly-motivated growth professional (4 years of experience) spanning performance and product marketing, GTM strategy, marketing automation, key-account management and revenue operations. At an insurtech company, running paid acquisition (8-12x ROAS, ~3,500 leads a month), built AI automation workflows processing 3,500+ leads/month, saving ₹19L+ annually, and shaped multi-crore new protection verticals. Earlier drove ₹30+ Crores ARR in Trivitrion's CEO Office. Dual MBA (from France & India) in Marketing, Strategy & Finance while being a National Winner at multiple international competitions.

EXPERIENCE

Jan'26 - Present **ZOPPER (SOLVY TECH SOLUTIONS PRIVATE LIMITED)**

Noida, India

Manager, Strategy at Founder's Office

- Led 24 LinkedIn ad campaigns managing ~₹4 Crores in ad-spend, delivering 8 to 15x ROAS and ~3,250 qualified leads at a best cost-per-lead of ~\$0.75 - via sharp audience targeting, multivariate A/B testing, deep competitor ad-analysis, and disciplined budget scaling
- Directed creative strategy and ad briefs that drove a ~2-2.5% average click-through-rate (which is 4-5x the LinkedIn benchmark)
- Built an autonomous cost-per-lead-vs-frequency tool that converts raw ad data into daily actions (actions such as: refresh creative, pause spend, reallocate budget), saving 2+ hours of ad-analysis per day
- Scaling the LinkedIn engine toward a ₹10 Cr managed ad-spend run-rate and 20,000+ qualified leads by FY-end, holding ROAS and CPL efficiency as volume grows
- Automated marketing operations end to end, covering lead capture, qualification, prioritization, distribution, and AI content vetting and generation, using automation workflows made with Zapier, N8N, Claude, Comet, and Perplexity. The pipeline distributes leads in under a 15-second turnaround time and vets or generates content in under 60 seconds, and is built to scale with volume
- Built a lead-sharing pipeline that processes 3,500+ leads/month, auto-routing to the right sales POCs and freeing ~21 hours of manual work weekly across self and sales team
- Unlocked ₹25L+ in annual cost savings (~₹14L by automating manual marketing workflows and ~₹5L by optimizing these workflows to give same output at a lower cost), redeploying freed budget into paid customer acquisition
- Built an AI-powered Market Entry Evaluator, a single-prompt engine that runs live multi-source research (market sizing, competitive, value chain analysis, industry landscape, market gap analysis) and outputs board-ready GTM strategy decks with a three-tier product architecture, field-research plan, and an honest Go or No-Go framework. Used it to evaluate 10+ new business categories (luxury watches, premium eyewear, furniture, etc.)
- Took the initiative to build an AI content engine for the company's LinkedIn page that drafts, fact-checks, and edits posts end to end, cutting per-post production to under 2 minutes; further expanding into automated landing-page creation, creative creation (static and carousel), video generation, and analytics reporting
- Drove 20+ CRM feature launches with the product team, from requirements through rollout and adoption, cutting operational cost and freeing bandwidth across service-operations teams
- Owned recurring insurance-revenue operations end to end: monthly reinsurer reconciliation, GWP reporting, revenue and claim-reimbursement invoicing, high-ticket and key-account management, claims-integrity checks, and SOP reviews
- Identified new business and vertical opportunities through primary and secondary research, competitor and value-chain analysis, surfacing multi-crore protection-gap opportunities (luxury watches, premium eyewear)
- Drove GTM launches for alumni programs and new verticals, compressing launch timelines from ~10 days to under 1 day through phase-wise planning and measurable KPIs
- Accelerated international partners' India GTM to 4-8 weeks by coordinating internal and external stakeholders
- Ran internal and external email and lifecycle marketing on Mailchimp to audiences up to 20,000 (including newsletters, brand surveys, recall studies), sustaining more than 97% internal and more than 38% external open rates; curated the external, employee, and quarterly business vertical specific newsletters

- Owned cross-functional brand initiatives end to end: podcast curation, corporate and client decks, social content calendars, blog and website management, monthly analytics reporting, brand video, and employer branding (Employee Speak)

Dec'24 - Dec'25 **TRIVITRON HEALTHCARE**
Business Manager

Gurugram, India

- Automated the end-to-end sales-order process, removing manual intervention and improving process efficiency by ~99%
- Drove strategic business development, pitching organizational capabilities to global C-suite stakeholders and contributing to ₹30+ Cr in annual recurring revenue
- Delivered 20+ high-priority CEO-Office projects across business development, automation, R&D, marketing, and organizational efficiency - owning scope, stakeholders, and timelines end-to-end
- Aligned R&D, Supply Chain, Sales, Marketing, Quality & Regulatory teams to accelerate product development and commercialization timelines
- Strengthened joint venture-partner relationships and supported evaluation, due diligence, and execution of new partnership opportunities
- Ran periodic business reviews and delivered strategic insights enabling executive decision-making and scalable revenue growth
- Supported ISO 13485, QMS, ISO 27001 & EU IVDR compliance programs with Quality & Regulatory teams and external consultants
